- ▶ The dashboard offers the following functions:
 - ▶ add new widgets
 - ▶ remove widgets
 - ▶ show more details
 - ▶ move widgets

Dashboard in the AGGM-Account

General Information

The screenshot shows a dashboard titled "Dashboard" for the location "Arnoldstein" covering the period "25/04/2024 - 26/04/2024". The main area contains a line chart with a y-axis ranging from 0 to 30 M and an x-axis showing a 24-hour cycle from 06:00 to 06:00. A blue line represents the primary data series, which starts at approximately 15 M, rises to 20 M by 12:00, and then drops to about 10 M by 18:00. Other lines in orange, green, and red remain flat at lower levels. Callouts point to various interactive elements: "Further information" points to an information icon (i) in the top right of the widget; "Move widget" points to a grid icon in the top right; "Delete widget" points to a trash can icon in the bottom left; and "Jump to the detailed view" points to a "Show details" button in the bottom right. An "Add widget" button is visible in the top right corner of the dashboard area.
